March 2015 (Revised May 13, 2015) PCN: 15-024

1 FOREWORD

1.1 QUALIFICATIONS STATEMENT

John Wall and Associates has done over 2,500 market analyses, the majority of these being for apartment projects (conventional and government). However, the firm has done many other types of real estate market analyses, shopping center master plans, industrial park master plans, housing and demographic studies, land planning projects, site analysis, location analysis and GIS projects. Clients include private developers, government officials, syndicators, and lending institutions.

Prior to founding John Wall and Associates, Mr. Wall was the Planning Director for a city of 30,000 where he supervised the work of the Planning Department, including coordinating the activities of and making presentations to both the Planning and Zoning Commission and the Zoning Board of Adjustment and Appeals. His duties included site plan approval, subdivision review, annexation, downtown revitalization, land use mapping program, and negotiation of realistic, workable solutions with various groups.

While in the public and private sectors, Mr. Wall served on the Appalachian Regional Council of Governments Planning and Economic Development Committee for more than seven years.

Mr. Wall has also taught site analysis and site planning part-time at the graduate level for several semesters as a visiting professor at Clemson University College of Architecture, Planning Department.

Mr. Wall holds a Master's degree in City and Regional Planning and a BS degree in Pre-Architecture. In addition, he has studied at the Clemson College of Architecture Center for Building Research and Urban Studies at Genoa, Italy, and at Harvard University in the Management of Planning and Design Firms, Real Estate Finance, and Real Estate Development.

1.2 RELEASE OF INFORMATION

This report shall not be released by John Wall and Associates to persons other than the client and his/her designates for a period of at least sixty (60) days. Other arrangements can be made upon the client's request.

1.3 TRUTH AND ACCURACY

It is hereby attested to that the information contained in this report is true and accurate. The report can be relied upon as a true assessment of the low income housing rental market. However, no assumption of liability is being made or implied.

1.4 IDENTITY OF INTEREST

The market analyst will receive no fees contingent upon approval of the project by any agency or lending institution, before or after the fact, and the market analyst will have no interest in the housing project.

1.5 CERTIFICATIONS

1.5.1 CERTIFICATION OF PHYSICAL INSPECTION

I affirm that I, or an individual employed by my company, have made a physical inspection of the market area and that information has been used in the full assessment of the need and demand for new rental units.

1.5.2 REQUIRED STATEMENT

I affirm that I have made a physical inspection of the market and surrounding area and the information obtained in the field has been used to determine the need and demand for LIHTC units. I understand that any misrepresentation of this statement may result in the denial of further participation in the South Carolina State Housing Finance & Development Authority's programs. I also affirm that I have no financial interest in the project or current business relationship with the ownership entity and my compensation is not contingent on this project being funded. This report was written according to the SCSHFDA's market study requirements. The information included is accurate and can be relied upon by SCSHFDA to present a true assessment of the low-income housing rental market.

1.5.3 NCHMA MEMBER CERTIFICATION

This market study has been prepared by John Wall and Associates, a member in good standing of the National Council of Housing Market Analysts (NCHMA). This study has been prepared in conformance with the standards adopted by NCHMA for the market analysts' industry. These standards include the Standard Definitions of Key Terms Used in Market Studies for Affordable Housing Projects, and Model Content Standards for the Content of Market Studies for Affordable Housing Projects. These standards are designed to enhance the quality of market studies and to make them easier to prepare, understand, and use by market analysts and by the end users. These Standards are voluntary only, and no legal responsibility regarding their use is assumed by the National Council of Housing Market Analysts.

John Wall and Associates is duly qualified and experienced in providing market analysis for Affordable Housing. The company's principals participate in the National Council of Housing Market Analysts (NCHMA) educational and information sharing programs to maintain the highest professional standards and state-of-the-art knowledge. John Wall and Associates is an independent market analyst. No principal or employee of John Wall and Associates has any financial interest whatsoever in the development for which this analysis has been undertaken.

(Note: Information on the National Council of Housing Market Analysts including *Standard Definitions of Key Terms and Model Content Standards* may be obtained by visiting http://www.housingonline.com/mac/machom e.htm)

3 INTRODUCTION

3.1 PURPOSE

The purpose of this report is to analyze the apartment market for a specific site in Pendleton, South Carolina.

3.2 SCOPE

Considered in this report are market depth, bedroom mix, rental rates, unit size, and amenities. These items are investigated principally through a field survey conducted by John Wall and Associates. Unless otherwise noted, all charts and statistics are the result of this survey.

In general, only complexes of 30 units or more built since 1980 are considered in the field survey. Older or smaller projects are sometimes surveyed when it helps the analysis. Projects with rent subsidized units are included, if relevant, and noted.

3.3 METHODOLOGY

Three separate approaches to the analysis are used in this report; each is a check on the other. By using three generally accepted approaches, reasonable conclusions can be drawn. The three approaches used are:

- (1) Statistical
- (2) Like-Kind Comparison
- (3) Interviews

The Statistical approach uses Census data and local statistics; 2010 is used as a base year. The population that would qualify for the proposed units is obtained from these figures.

The Like-Kind Comparison approach collects data on projects similar in nature to that which is being proposed and analyzes how they are doing. This approach assesses their strong points, as well as weak points, and compares them with the subject.

The last section, Interviews, assesses key individuals' special knowledge about the market area. While certainly subjective and limited in perspective, their collective knowledge, gathered and assessed, can offer valuable information.

Taken individually, these three approaches give a somewhat restricted view of the market. However, by examining them together, knowledge sufficient to draw reasonable conclusions can be achieved.

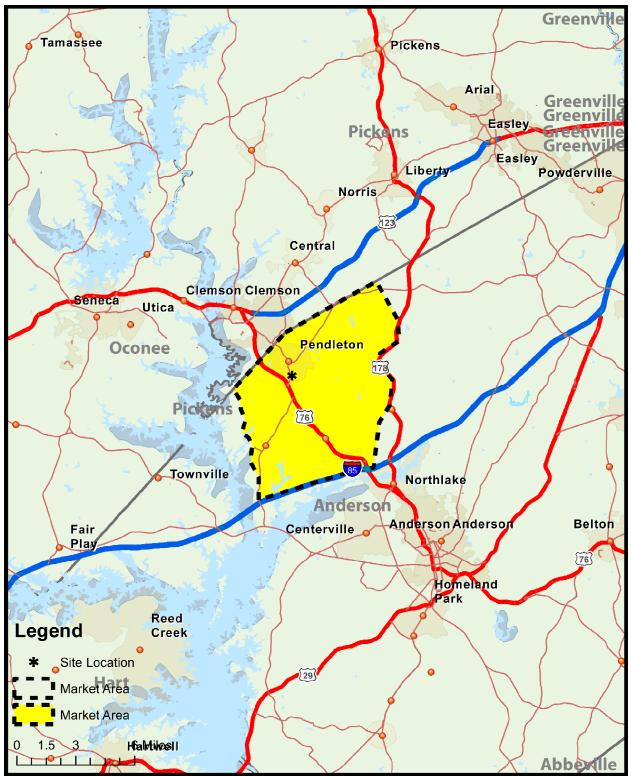

3.4 LIMITATIONS

This market study was written according to the SCSHFDA *Market Study Guide*. To the extent this guide differs from the NCHMA *Standard Definitions of Key Terms or Model Content Standards*, the guide has prevailed.

REGIONAL LOCATOR MAP

AREA LOCATOR MAP

4 EXECUTIVE SUMMARY

The projected completion date of the proposed project is on or before 12/31/2017.

The market area (conservative) consists of Census tracts 106 (50%), 107, and 108 (50%) in Anderson County.

The proposed project consists of 40 units of rehabilitation.

The proposed project is for elderly 62+ households and/or handicapped households, either receiving project-based rental assistance.

4.1 DEMAND

| | 50% AMI: \$0 to \$20,300 | 60% AMI: \$0 to \$24,360 | Overall Project: \$0 to \$24,360 |
|----------------------------|--------------------------|--------------------------|----------------------------------|
| New Housing Units Required | 5 | 5 | 5 |
| Rent Overburden Households | 27 | 30 | 30 |
| Substandard Units | 6 | 6 | 6 |
| Elderly Tenure | 14 | 16 | 16 |
| Other: Disability | 97 | 111 | 111 |
| Demand | 149 | 168 | 168 |
| Less New Supply | 0 | 0 | 0 |
| NET DEMAND | 149 | 168 | 168 |

4.1.1 OPTIMAL BEDROOM MIX

The following bedroom mix will keep the market in balance over the long term. Individual projects can vary from it.

| Bedrooms | Optimal Mix |
|-----------------|--------------------|
| 1 | 80% |
| 2 | 20% |
| 3 | 0% |
| 4 | 0% |
| Total | 100% |

4.1.2 ABSORPTION

The project should be able to maintain 93% occupancy through the rehabilitation.

4.2 CAPTURE RATE

Capture Rate by Unit Size (Bedrooms) and Targeting

| 50% AMI: \$0 to \$20,300 | | | | Capture |
|----------------------------------|---------------|----------|-----------------|---------|
| | Demand | % | Proposal | Rate |
| 1-Bedroom | 119 | 80% | 8 | 6.7% |
| 2-Bedrooms | 30 | 20% | 0 | 0.0% |
| 3-Bedrooms | 0 | 0% | 0 | — |
| 4 or More Bedrooms | 0 | 0% | 0 | _ |
| Total | 149 | 100% | 8 | 5.4% |
| 60% AMI: \$0 to \$24,360 | | | | Capture |
| | Demand | <u>%</u> | Proposal | Rate |
| 1-Bedroom | 134 | 80% | 32 | 23.9% |
| 2-Bedrooms | 34 | 20% | 0 | 0.0% |
| 3-Bedrooms | 0 | 0% | 0 | — |
| 4 or More Bedrooms | 0 | 0% | 0 | — |
| Total | 168 | 100% | 32 | 19.1% |
| Overall Project: \$0 to \$24,360 | | | | Capture |
| | Demand | % | Proposal | Rate |
| 1-Bedroom | 134 | 80% | 40 | 29.8% |
| 2-Bedrooms | 34 | 20% | 0 | 0.0% |
| 3-Bedrooms | 0 | 0% | 0 | — |
| 4 or More Bedrooms | 0 | 0% | 0 | — |
| Total | 168 | 100% | 40 | 23.9% |

* Numbers may not add due to rounding.

The capture rate is not intended to be used in isolation. A low capture rate does not guarantee a successful project, nor does a high capture rate assure failure; the capture rate should be considered in the context of all the other indicators presented in the study. It is one of many factors considered in reaching a conclusion.

Note that the actual capture rate is 0.0%, because no new units will be added to the supply and all the current tenants are income qualified.

4.3 NCHMA CAPTURE RATE

NCHMA defines capture rate as:

The percentage of age, size, and income qualified renter households in the primary market area that the property must capture to achieve the stabilized level of occupancy. Funding agencies may require restrictions to the qualified households used in the calculation including age, income, living in substandard housing, mover-ship and other comparable factors. The capture rate is calculated by dividing the total number of units at the property by the total number of age, size and income qualified renter households in the primary market area. See penetration rate for rate for entire market area.

This definition varies from the capture rate used above.

NCHMA Capture Rate

| | Income Qualified Renter | | Capture |
|----------------------------------|-------------------------------|-----------------|---------|
| | Households | Proposal | Rate |
| 50% AMI: \$0 to \$20,300 | 79 | 8 | 10.1% |
| 60% AMI: \$0 to \$24,360 | 90 | 32 | 35.5% |
| Overall Project: \$0 to \$24,360 | 90 | 40 | 44.4% |

4.4 CONCLUSIONS

4.4.1 SUMMARY OF FINDINGS

- The **site** appears suitable for the project. It is already developed as the subject apartments.
- The **neighborhood** is compatible with the project. It is a mixed use area on the edge of town with other residential development nearby.
- The **location** is suitable to the project. Pendleton is a small town, so all goods and services are relatively close to the site, but the grocery store is particularly close (just about ½ mile away.
- The **population and household growth** in the market area is good. The market area will grow by 168 households from 2014 to 2017.
- The local **economy** has been improving.
- The **demand** for the project is reasonable. Overall demand is 168, but the subject will not be adding any new units to the market.
- The **capture rates** for the project are reasonable. The overall Tax Credit capture rate is 23.9%, but the effective capture rate is 0.0% because the subject is not adding any additional units and it is already 100% occupied.
- Aside from the subject itself, there are no **comparable** apartments (i.e. elderly with rental assistance). Heritage at Riverwood and Heritage Pointe will be used for market rent comparables.
- The **average LIHTC vacancy rate** for units surveyed without PBRA is 1.8%.
- The **rents**, given prevailing rents, vacancy rates, and concessions in the market area, are good because they are based on income.
- The proposed **bedroom mix** is reasonable for the market.
- The **unit sizes** are appropriate for the project.
- The subject's **amenities** are good and comparable or superior to similarly priced apartments. The new amenities will be good additions to the subject.
- The subject's **value** should be perceived as good.
- The subject's **affordability** is good.
- Those **interviewed** felt the project should be successful.
- The proposal would have no **impact** on existing LIHTC projects.

4.4.2 **RECOMMENDATIONS**

None

4.4.3 NOTES

No new units will be added to the market area.

4.4.3.1 STRENGTHS

RD Rental Assistance on all units Attractive setting Convenient to goods and services

4.4.3.2 WEAKNESSES

None

4.4.4 CONCLUSION

The subject should be successful, as proposed.

5 PROJECT DESCRIPTION

The project description is provided by the developer.

5.1 DEVELOPMENT LOCATION

The site is on the south side of Pendleton, South Carolina. It is located at 115 Shirley Street.

5.2 CONSTRUCTION TYPE

Rehabilitation

5.3 OCCUPANCY

The proposal is for occupancy by elderly 62+ and/or handicapped households.

5.4 TARGET INCOME GROUP

Low income

5.5 SPECIAL POPULATION

Three units designed for mobility impaired, one unit designed for vision impaired, and one unit designed for hearing impaired

5.6 STRUCTURE TYPE

Flat; the subject has one community and 11 residential buildings. The residential buildings have one floor.

Floor plans and elevations were not available at the time the study was conducted but the actual buildings were observed.

5.7 UNIT SIZES, RENTS AND TARGETING

| AMI | Bedrooms | Baths | Number of Units | Square <u>Feet</u> | Net <u>Rent</u> | Utility Allow. | Gross <u>Rent</u> | Target Population |
|------------|--|--------|---------------------|-----------------------|--------------------|-------------------|----------------------|----------------------|
| | Dearoonis | Dutins | | | | | | |
| 50% | 1 | 1 | 8 | 625 | 495 | 71 | 566 | PBRA |
| 60% | 1 | 1 | 32 | 625 | 495 | 71 | 566 | PBRA |
| | Total Units Tax Credit Units PBRA Units Mkt. Rate Units | | 40 40 40 0 | | | | | |

These *pro forma* rents will be evaluated in terms of the market in the Supply section of the study.

5.8 **DEVELOPMENT AMENITIES**

Laundry room, community center, computer room, fitness center, and gazebo

5.9 UNIT AMENITIES

Refrigerator, stove, microwave, washer/dryer connections, ceiling fan, HVAC, blinds, and pre-wired telephone/cable

5.10 UTILITIES INCLUDED

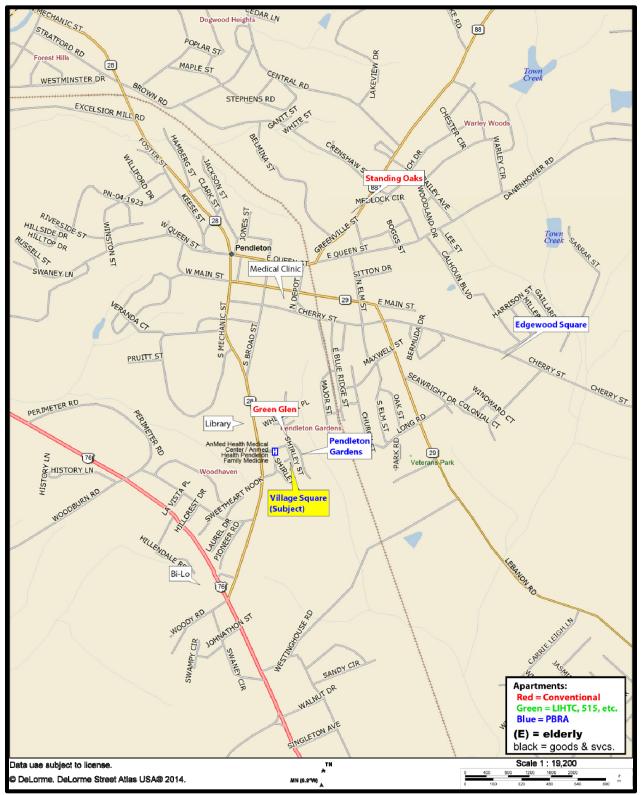

Water, sewer, and trash

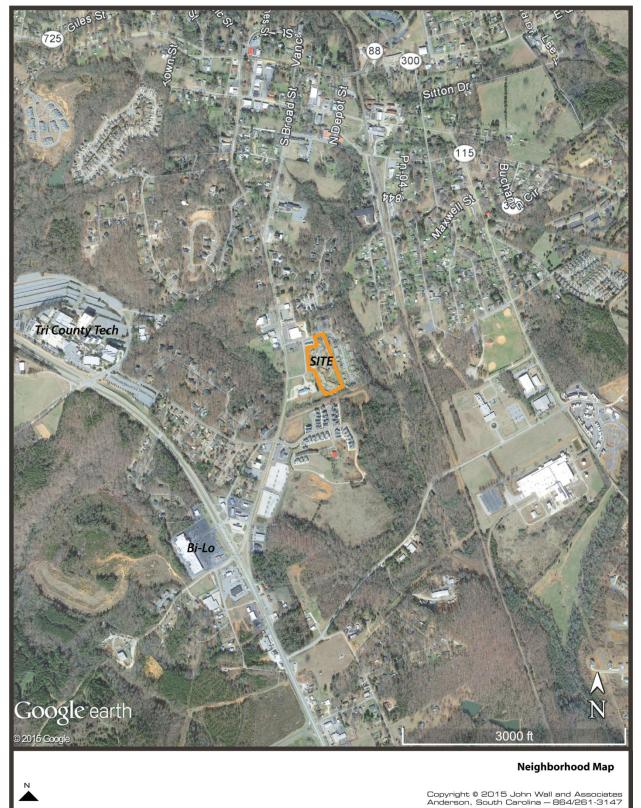

5.11 PROJECTED CERTIFICATE OF OCCUPANCY DATE

It is anticipated that the subject will have its final certificates of occupancy on or before 12/31/2017.

6 SITE EVALUATION

SITE LOCATION MAP

6.1 DATE OF SITE VISIT

Bob Rogers visited the site on February 28, 2015.

6.2 DESCRIPTION OF SITE AND ADJACENT PARCELS

In addition to the following narrative, a visual description of the site and the adjacent parcels is provided in the maps on the preceding pages and the photographs on the following pages.

6.3 VISIBILITY AND CURB APPEAL

The site is adjacent to the post office, so it has excellent visibility.

6.4 ACCESS AND INGRESS

Access to the site is from Shirley Drive. There are no problems with access and ingress.

6.5 PHYSICAL CONDITIONS

The site is currently developed as the subject apartments. There are mature trees on the site.

6.6 ADJACENT LAND USES AND CONDITIONS

- N: Green Glen Apartments and a dance studio
- E: Pendleton Gardens Apartments
- S: Woods then new single family homes
- W: U.S. Post Office and an undeveloped field

6.7 VIEWS

There are no views out from the site that could be considered negative.

6.8 **NEIGHBORHOOD**

The neighborhood has a mixture of uses, typical of a small town.

6.9 SHOPPING, GOODS, SERVICES AND AMENITIES

There is a Bi-Lo shopping center about 2/3 mile from the site. Other goods and services are available in the area.

6.10 EMPLOYMENT OPPORTUNITIES

There are limited employment opportunities in Pendleton.

6.11 TRANSPORTATION

The subject is near Mechanic Street, which is South Carolina Highway 28. It is a short distance to US Highway 76, which is the main highway in the area.

The Clemson Area Transit (CAT) provides public transportation in Pendleton, Clemson, Central, and Seneca. The Pendleton Route runs along S. Mechanic Street, 0.2 mile from site. Residents at the subject can walk to S. Mechanic Street and wave at the bus to ride. There is no fare for the CAT bus. It is a free public service. CAT busses are ADA equipped. The

Pendleton Route operates Monday through Friday from 6:55 a.m. to 6:45 p.m. except on major holidays.

6.12 OBSERVED VISIBLE ENVIRONMENTAL OR OTHER CONCERNS

There were no environmental or other concerns observed.

6.13 CRIME

According to the FBI, in 2013 the following crimes were reported to police:

Crimes Reported to Police

| <u>Ci</u> | | ounty |
|-----------------------|---|-------|
| Population: - | _ | |
| Violent Crime - | | 803 |
| Murder - | _ | 8 |
| Rape - | _ | 63 |
| Robbery - | _ | 142 |
| Assault - | _ | 590 |
| Property Crime - | _ | 7,617 |
| Burglary - | _ | 2,169 |
| Larceny - | _ | 4,776 |
| Motor Vehicle Theft - | _ | 672 |
| Arson - | _ | 23 |

 $10/table_10_offenses_known_to_law_enforcement_by_state_by_metropolitan_and_nonmetropolitan_counties_2013.xls/view$

Detailed crime statistics for the neighborhood are not available. The site does not appear to be in a problematic area.

6.14 CONCLUSION

The site is well suited for the proposed rehabilitation.

SITE AND NEIGHBORHOOD PHOTOS AND ADJACENT LAND USES MAP

7 MARKET AREA

MARKET AREA MAP

7.1 MARKET AREA DETERMINATION

The market area is the community where the project will be located and only those outlying rural areas that will be significantly impacted by the project, generally excluding other significant established communities. The market area is considered to be the area from which most of the prospective tenants will be drawn. Some people will move into the market area from nearby towns, while others will move away. These households are accounted for in the "Household Trends" section. The border of the market area is based on travel time, commuting patterns, the gravity model, physical boundaries, and the distribution of renters in the area. The analyst visits the area before the market area definition is finalized.

Housing alternatives and local perspective will be presented in the Development Comparisons section of this report.

7.2 DRIVING TIMES AND PLACE OF WORK

Commuter time to work is shown below:

Workers' Travel Time to Work for the Market Area (Time in Minutes)

| | <u>State</u> | <u>%</u> | <u>County</u> | <u>%</u> | Market Area | <u>%</u> | <u>City</u> | <u>%</u> |
|---------------------|--------------|----------|---------------|----------|-------------|----------|-------------|----------|
| Total: | 1,914,792 | | 75,935 | | 5,013 | | 1,121 | |
| Less than 5 minutes | 61,660 | 3.2% | 2,846 | 3.7% | 102 | 2.0% | 43 | 3.8% |
| 5 to 9 minutes | 199,805 | 10.4% | 7,897 | 10.4% | 471 | 9.4% | 228 | 20.3% |
| 10 to 14 minutes | 289,667 | 15.1% | 11,969 | 15.8% | 554 | 11.1% | 185 | 16.5% |
| 15 to 19 minutes | 333,122 | 17.4% | 12,803 | 16.9% | 904 | 18.0% | 115 | 10.3% |
| 20 to 24 minutes | 314,842 | 16.4% | 12,129 | 16.0% | 883 | 17.6% | 168 | 15.0% |

| 90 or more minutes | 32,693 | 1.7% | 1,141 | 1.5% | 59 | 1.2% | 23 | 2.1% |

Source: 2011-5yr ACS (Census)

7.3 MARKET AREA DEFINITION

The market area for this report has been defined as Census tracts 106 (50%), 107, and 108 (50%) in Anderson County (2010 Census). The market area is defined in terms of standard US Census geography so it will be possible to obtain accurate, verifiable information about it. The Market Area Map highlights this area.

7.3.1 SECONDARY MARKET AREA

The secondary market area for this report has been defined as northern Anderson County and southern Pickens County. Demand will neither be calculated for, nor derived from, the secondary market area.

8 DEMOGRAPHIC ANALYSIS

8.1 **POPULATION**

8.1.1 POPULATION TRENDS

Housing demand is most closely associated with population trends. While no population projection presently exists for the market area, one is calculated from existing figures and shown below.

Population Trends and Projections

| | State | County | Market Area | <u>City</u> |
|------|-----------|---------|-------------|-------------|
| 2000 | 4,012,012 | 165,740 | 10,634 | 2,966 |
| 2008 | 4,511,428 | 183,691 | 11,382 | 2,961 |
| 2010 | 4,625,364 | 187,126 | 11,845 | 2,964 |
| 2014 | 4,870,705 | 195,680 | 12,329 | 2,963 |
| 2017 | 5,054,710 | 202,096 | 12,693 | 2,963 |

Sources: 2000 Census; 2010 5yr ACS (Census); 2010 Census; others by John Wall and Associates from figures shown

As seen in the table above, the population in the market area was 12,329 in 2014 and is projected to increase by 363 persons from 2014 to 2017.

8.1.2 ELDERLY POPULATION TRENDS

The population trends for elderly age groups are of interest as an indicator of the future need for elderly apartments. *The proposal is for* elderly 62+.

Elderly Population Trends and Projections for the Market Area

| | <u>55+</u> | <u>62+</u> | <u>65+</u> |
|---------------------|------------|------------|------------|
| 2000 | 2,605 | 1,707 | 1,413 |
| 2007 | 3,578 | 2,401 | 1,955 |
| 2010 | 3,586 | 2,392 | 1,894 |
| 2014 | 3,597 | 2,380 | 1,813 |
| 2017 | 3,605 | 2,371 | 1,752 |
| Growth 2014 to 2017 | 8 | -9 | -61 |

Sources: 2000 Census; 2010 5yr ACS (Census); 2010 Census; others by John Wall and Associates from figures shown

As can be seen in the table above, in the elderly 62+ category, there were 2,380 persons in 2014, and there are projected to be 2,371 in 2017, which indicates a change of -9 persons between 2014 and 2017.

8.1.3 AGE

Population is shown below for several age categories. The percent figures are presented in such a way as to easily compare the market area to the state, which is a "norm." This will point out any peculiarities in the market area.

Persons by Age

| | State | <u>%</u> | <u>County</u> | <u>%</u> | Market Area | <u>%</u> | <u>City</u> | <u>%</u> |
|----------|-----------|----------|---------------|----------|-------------|----------|-------------|----------|
| Total | 4,625,364 | | 187,126 | | 11,845 | | 2,964 | |
| Under 20 | 1,224,425 | 26.8% | 49,815 | 26.8% | 2,766 | 23.7% | 599 | 20.1% |
| 20 to 34 | 924,550 | 20.2% | 32,210 | 17.3% | 2,201 | 18.8% | 714 | 24.0% |
| 35 to 54 | 1,260,720 | 27.6% | 52,609 | 28.3% | 3,301 | 28.2% | 690 | 23.1% |
| 55 to 61 | 418,651 | 9.1% | 17,116 | 9.2% | 1,194 | 10.2% | 282 | 9.5% |
| 62 to 64 | 165,144 | 3.6% | 7,047 | 3.8% | 498 | 4.3% | 91 | 3.1% |
| 65 plus | 631,874 | 13.8% | 28,329 | 15.3% | 1,894 | 16.2% | 588 | 19.7% |
| 55 plus | 1,215,669 | 26.6% | 52,492 | 28.3% | 3,586 | 30.7% | 961 | 32.2% |
| 62 plus | 797,018 | 17.4% | 35,376 | 19.1% | 2,392 | 20.5% | 679 | 22.8% |

Source: 2010 Census

8.1.4 RACE AND HISPANIC ORIGIN

The racial composition of the market area does not factor into the demand for units; the information below is provided for reference.

Note that "Hispanic" is not a racial category. "White," "Black," and "Other" represent 100% of the population. Some people in each of those categories also consider themselves "Hispanic." The percent figures allow for a comparison between the state ("norm") and the market area.

Race and Hispanic Origin

| Total | <u>State</u> 4,625,364 | <u>%</u> | <u>County</u> 187,126 | <u>%</u> | <u>Market Area</u> 11,845 | <u>%</u> | <u>City</u> 2,964 | <u>%</u> |
|---------------------------|---------------------------|---------------|--------------------------|---------------|------------------------------|---------------|----------------------|---------------|
| Not Hispanic or Latino | 4,389,682 | 94.9 % | 181,679 | 97. 1% | 11,625 | 98.1 % | 2,917 | 98.4 % |
| White | 2,962,740 | 64.1% | 147,362 | 78.8% | 9,368 | 79.1% | 2,112 | 71.3% |
| Black or African American | 1,279,998 | 27.7% | 29,810 | 15.9% | 1,924 | 16.2% | 684 | 23.1% |
| American Indian | 16,614 | 0.4% | 420 | 0.2% | 26 | 0.2% | 6 | 0.2% |
| Asian | 58,307 | 1.3% | 1,384 | 0.7% | 97 | 0.8% | 35 | 1.2% |
| Native Hawaiian | 2,113 | 0.0% | 29 | 0.0% | 6 | 0.1% | 1 | 0.0% |
| Some Other Race | 5,714 | 0.1% | 183 | 0.1% | 14 | 0.1% | 5 | 0.2% |
| Two or More Races | 64,196 | 1.4% | 2,491 | 1.3% | 190 | 1.6% | 74 | 2.5% |
| Hispanic or Latino | 235,682 | 5.1% | 5,447 | 2.9 % | 220 | 1.9% | 47 | 1.6% |
| White | 97,260 | 2.1% | 2,456 | 1.3% | 113 | 1.0% | 30 | 1.0% |
| Black or African American | 10,686 | 0.2% | 210 | 0.1% | 10 | 0.1% | 6 | 0.2% |
| American Indian | 2,910 | 0.1% | 58 | 0.0% | 6 | 0.1% | 3 | 0.1% |
| Asian | 744 | 0.0% | 21 | 0.0% | 0 | 0.0% | 0 | 0.0% |
| Native Hawaiian | 593 | 0.0% | 14 | 0.0% | 1 | 0.0% | 1 | 0.0% |
| Some Other Race | 107,750 | 2.3% | 2,317 | 1.2% | 74 | 0.6% | 5 | 0.2% |
| Two or More Races | 15,739 | 0.3% | 371 | 0.2% | 17 | 0.1% | 2 | 0.1% |

Source: 2010 Census

Note that the "Native Hawaiian" category above also includes "Other Pacific Islander" and the "American Indian" category also includes "Alaska Native."

8.1.5 REQUIRED SCSHFDA TABLE FOR CENSUS TRACT 107

The following table is required by Bulletin #2—Revised, dated February 18, 2015.

| | | Concentration | Tract | Tract |
|--|----------------|---------------|--------|---------|
| <u>Minority Group</u> | Statewide Pct. | Threshold | Number | Percent |
| Total Minority Population | 33.8 | 53.8 | 1,757 | 30.6 |
| Black or African American | 27.9 | 47.9 | 1,509 | 26.3 |
| American Indian and Alaska Native | 0.4 | 20.4 | 45 | 0.8 |
| Asian | 1.3 | 21.3 | 76 | 1.3 |
| Native Hawaiian and Other Pacific Islander | 0.1 | 20.1 | 7 | 0.1 |
| Hispanic or Latino | 5.1 | 25.1 | 142 | 2.5 |

Total Minority = 5,741 - 4,057 + 70 = 1,757 (i.e., Total population less non-Hispanic white alone.)

Source: QT-P6; Calculations by John Wall and Associates

8.1.6 RACE ALONE OR IN COMBINATION AND HISPANIC OR LATINO FOR CENSUS TRACT 107

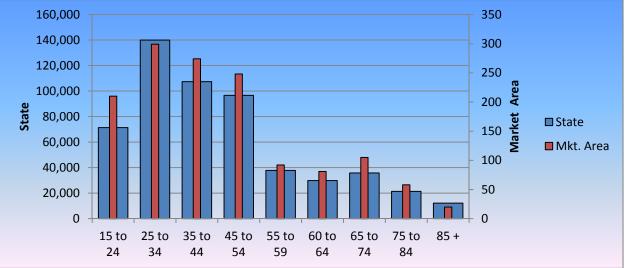

| Total population (all races) | Tract Number 5,741 |
|--|--------------------------|
| WHITE | |
| White alone or in combination [1] | 4,177 |
| Hispanic or Latino | 73 |
| White alone | 4,057 |
| Hispanic or Latino | 70 |
| BLACK OR AFRICAN AMERICAN | |
| Black or African American alone or in combination [1] | 1,509 |
| Hispanic or Latino | 13 |
| Black or African American alone | 1,426 |
| Hispanic or Latino | 9 |
| AMERICAN INDIAN AND ALASKA NATIVE | |
| American Indian and Alaska Native alone or in combination [1] | 45 |
| Hispanic or Latino | 4 |
| American Indian and Alaska Native alone | 11 |
| Hispanic or Latino | 3 |
| ASIAN | |
| Asian alone or in combination [1] | 76 |
| Hispanic or Latino | 0 |
| Asian alone | 59 |
| Hispanic or Latino | 0 |
| NATIVE HAWAIIAN AND OTHER PACIFIC ISLANDER | |
| Native Hawaiian and Other Pacific Islander alone or in combination [1] | 7 |
| Hispanic or Latino | 1 |
| Native Hawaiian and Other Pacific Islander alone | 6 |
| Hispanic or Latino | 1 |
| SOME OTHER RACE | |
| Some Other Race alone or in combination [1] | 61 |
| Hispanic or Latino | 51 |
| Some Other Race alone | 53 |
| Hispanic or Latino | 47 |

X Not applicable.

[1] The race concept "alone or in combination" includes people who reported a single race alone (e.g., Asian) and people who reported that race in combination with one or more of the other race groups (i.e., White, Black or African American, American Indian and Alaska Native, Native Hawaiian and Other Pacific Islander, and Some Other Race). The "alone or in combination" concept, therefore, represents the maximum number of people who reported as that race group, either alone, or in combination with another race(s). The sum of the six individual race "alone or in combination" concept more than one race are tallied in each race category.

Source: 2010 Census, QT-P6

8.2 HOUSEHOLDS

Renter Households by Age of Householder

Source: 2010 Census

The graph above shows the relative distribution of households by age in the market area as compared to the state.

8.2.1 HOUSEHOLD TRENDS

The following table shows the change in the number of households between the base year and the projected year of completion.

Household Trends and Projections

| | <u>State</u> | <u>County</u> | Market Area | <u>City</u> |
|---------------------|--------------|---------------|-------------|-------------|
| 2000 | 1,533,854 | 65,649 | 4,497 | 1,397 |
| 2008 | 1,741,994 | 71,973 | 4,647 | 1,179 |
| 2010 | 1,801,181 | 73,829 | 5,057 | 1,412 |
| 2014 | 1,908,112 | 77,101 | 5,281 | 1,418 |
| 2017 | 1,988,310 | 79,555 | 5,449 | 1,423 |
| Growth 2014 to 2017 | 80,198 | 2,454 | 168 | 5 |

Sources: 2000 Census; 2010 5yr ACS (Census); 2010 Census; others by John Wall and Associates from figures shown

In 2000, the market area had 4,497 households and thus a demand for the same number of housing units (because each household lives in its own housing unit). Similarly, there were 5,281 households in 2014, and there will be 5,449 in 2017. These figures indicate that the market area needs to provide 168 housing units from 2014 to 2017.

8.2.2 ELDERLY HOUSEHOLD TRENDS

The following table shows the number of households in various elderly categories for several years.

Elderly Household Trends and Projections for the Market Area

| | <u>55+</u> | <u>62+</u> | <u>65+</u> |
|---------------------|------------|------------|------------|
| 2000 | 1,658 | 1,160 | 947 |
| 2008 | 2,241 | 1,581 | 1,298 |
| 2010 | 2,291 | 1,588 | 1,287 |
| 2014 | 2,544 | 1,759 | 1,423 |
| 2017 | 2,696 | 1,849 | 1,486 |
| Growth 2014 to 2017 | 152 | 89 | 63 |

Sources: 2000 Census; 2010 5yr ACS (Census); 2011 Census; others by John Wall and Associates from figures shown

As can be seen in the table above, in the 62+ category, the number of households in 2014 was 1,759. In 2017, there are projected to be 1,849. This indicates a need for 89 additional housing units by the year of completion to account for growth in the 62+ age category.

8.2.3 HOUSEHOLD TENURE

The tables below show how many units are occupied by owners and by renters. The percent of the households in the market area that are occupied by renters will be used later in determining the demand for new rental housing.

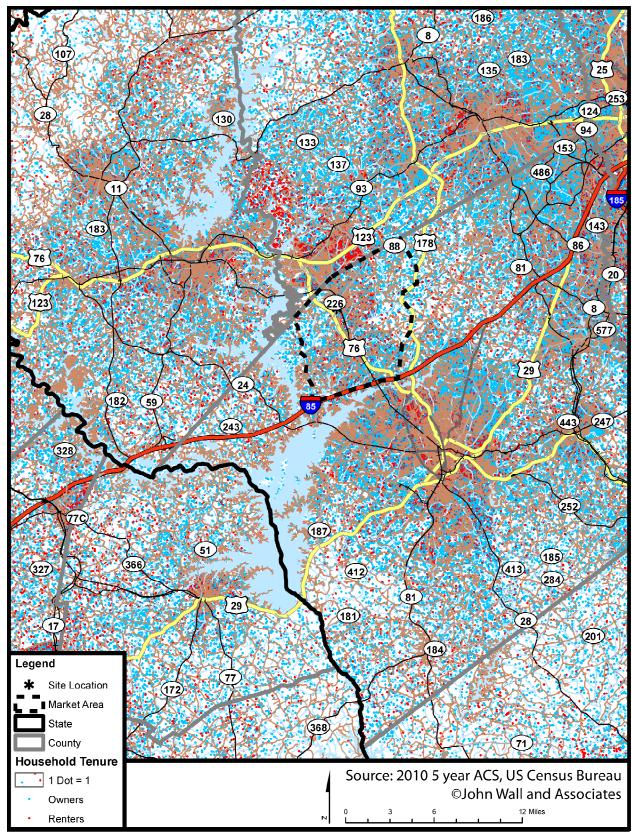

Occupied Housing Units by Tenure

| | ate | <u>%</u> <u>C</u> | <u>County</u> | % | <u>Market Area</u> | <u>%</u> | <u>City</u> | <u>%</u> |
|--------------------|----------|-------------------|---------------|-------|--------------------|----------|-------------|----------|
| Households 1,801 | 181 | _ | 73,829 | — | 5,057 | — | 1,412 | _ |
| Owner 1,248 | 805 69.3 | % | 53,015 | 71.8% | 3,672 | 72.6% | 829 | 58.7% |
| Renter 552 | 376 30.7 | % | 20,814 | 28.2% | 1,385 | 27.4% | 583 | 41.3% |

Source: 2010 Census

From the table above, it can be seen that 27.4% of the households in the market area rent. This percentage will be used later in the report to calculate the number of general occupancy units necessary to accommodate household growth.

TENURE MAP

8.2.4 ELDERLY HOUSEHOLD TENURE

The table below shows tenure by age. The percentage calculated is the percent owners or renters in each age group.

Occupied Housing Units by Tenure by Age

| | <u>State</u> | <u>%</u> | County | <u>%</u> | Market Area | <u>%</u> | City | <u>%</u> |
|------------------|--------------|----------|--------|----------|-------------|----------|------|----------|
| Owner occupied: | 1,248,805 | 69.3% | 53,015 | 71.8% | 3,672 | 72.6% | 829 | 58.7% |
| 15 to 24 years | 17,132 | 19.4% | 735 | 25.1% | 73 | 25.8% | 15 | 10.9% |
| 25 to 34 years | 127,978 | 47.8% | 5,100 | 51.8% | 384 | 56.2% | 100 | 46.3% |

From the table above, tenure can be determined for various age groups of interest for the market area.

Occupied Housing Units by Tenure by Age for the Market Area

| | Owners | <u>%</u> | Renters | % |
|------|--------|----------|----------------|-------|
| 55 + | 1,935 | 84.5% | 356 | 15.5% |
| 62 + | 1,371 | 85.5% | 232 | 14.5% |
| 65 + | 1,104 | 85.8% | 183 | 14.2% |

Source: 2010 Census

8.2.5 HOUSEHOLD SIZE

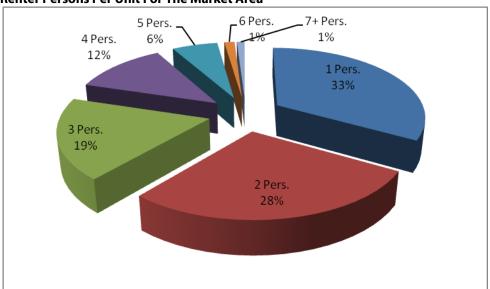

Household size is another characteristic that needs to be examined. The household size of those presently renting can be used as a strong indicator of the bedroom mix required. Renters and owners have been shown separately in the tables below because the make-up of owner-occupied units is significantly different from that of renters. A comparison of the percent figures for the market area and the state ("norm") is often of interest.

Housing Units by Persons in Unit

| | <u>State</u> | | County | | Market Area | | <u>City</u> | |
|------------------|--------------|-------|--------|-------|-------------|-------|-------------|-------|
| Owner occupied: | 1,248,805 | _ | 53,015 | _ | 3,672 | _ | 829 | _ |
| 1-person | 289,689 | 23.2% | 11,749 | 22.2% | 972 | 26.5% | 304 | 36.7% |
| 2-person | 477,169 | 38.2% | 20,552 | 38.8% | 1,542 | 42.0% | 336 | 40.5% |
| 3-person | 210,222 | 16.8% | 8,957 | 16.9% | 527 | 14.4% | 102 | 12.3% |

Source: 2010 Census

The percent and number of large (5 or more persons) households in the market is an important fact to consider in projects with a significant number of 3 or 4 bedroom units. In such cases, this fact has been taken into account and is used to refine the analysis. It also helps to determine the upper income limit for the purpose of calculating demand. In the market area, 8.8% of the renter households are large, compared to 10.3% in the state.

Renter Persons Per Unit For The Market Area

8.2.6 HOUSEHOLD INCOMES

The table below shows the number of households (both renter and owner) that fall within various income ranges for the market area.

Number of Households in Various Income Ranges

| | <u>State</u> | <u>%</u> | <u>County</u> | <u>%</u> | Market Area | <u>%</u> | <u>City</u> | <u>%</u> |
|------------------------|--------------|----------|---------------|----------|-------------|----------|-------------|----------|
| Total: | 1,758,732 | | 72,519 | | 4,936 | | 1,340 | |
| Less than \$10,000 | 161,299 | 9.2% | 6,361 | 8.8% | 339 | 6.9% | 204 | 15.2% |
| \$10,000 to \$14,999 | 114,539 | 6.5% | 5,158 | 7.1% | 394 | 8.0% | 176 | 13.1% |
| \$15,000 to \$19,999 | 111,169 | 6.3% | 4,982 | 6.9% | 357 | 7.2% | 99 | 7.4% |

9.2 NEW OR PLANNED CHANGES IN WORKFORCE

If there are any, they will be discussed in the Interviews section of the report.

9.3 EMPLOYMENT (CIVILIAN LABOR FORCE)

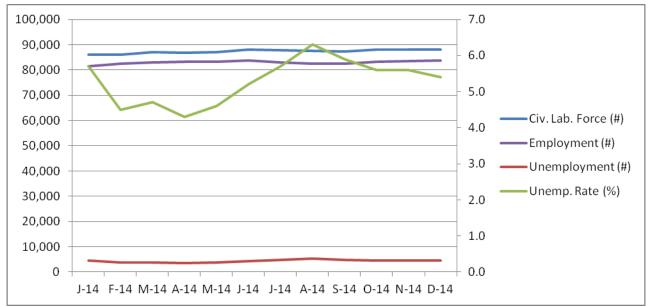

In order to determine how employment affects the market area and whether the local economy is expanding, declining, or stable, it is necessary to inspect employment statistics for several years. The table below shows the increase or decrease in employment and the percentage of unemployed at the county level. This table also shows the change in the size of the labor force, an indicator of change in housing requirements for the county.

Employment Trends

| | Civilian | | | | Employment Change | | Annual Change | |

9.4 WORKFORCE HOUSING

The subject is not located in an area that is drawn from for some other area (e.g., a resort area) so this topic is not relevant.

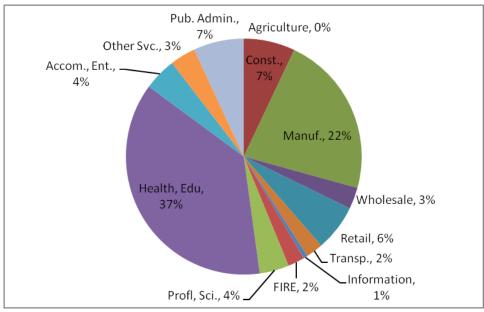

9.5 ECONOMIC SUMMARY

The largest number of persons in the market area is employed in the "Management, professional, and related occupations" occupation category and in the "Educational services, and health care and social assistance" industry category.

A change in the size of labor force frequently indicates a corresponding change in the need for housing. The size of the labor force has been increasing over the past several years.

Employment has been increasing over the past several years. For the past 12 months the unemployment rate has varied from 4.3% to 6.3%; in the last month reported it was 5.4%.

A downturn in the economy and thus a corresponding increase in unemployment will impact LIHTC properties without rental assistance. LIHTC properties without rental assistance require tenants who either earn enough money to afford the rent or have a rent subsidy voucher. When there is an increase in unemployment, there will be households where one or more employed persons become unemployed. Some households that could afford to live in the proposed units will no longer have enough income. By the same token, there will be other households that previously had incomes that were too high to live in the proposed units that will now be income qualified.

Percent of Workers by Occupation for the Market Area

Source: 2011-5yr ACS (Census)

10 INCOME RESTRICTIONS AND AFFORDABILITY

Several economic factors need to be examined in a housing market study. Most important is the number of households that would qualify for apartments on the basis of their incomes. A variety of circumstances regarding restrictions and affordability are outlined below.

These minimum and maximum incomes are used to establish the income *range* for households entering the project. Only households whose incomes fall within the range are considered as a source of demand.

Income data have been shown separately for owner and renter households. Only the renter household income data are used for determining demand for rental units.

Gross rent includes utilities, but it excludes payments of rental assistance by federal, state, and local entities. In this study, gross rent is always monthly.

10.1 HOUSEHOLDS RECEIVING HUD RENTAL ASSISTANCE

The lower limit of the acceptable income range for units with rental assistance is zero income. The upper limit of the acceptable income range for units with HUD rental assistance is established by the HUD guidelines. HUD allows very low income households (50% AMI or less) to receive rental assistance in the general case, and low income households (80% AMI or less) in some cases. HUD also requires that 75% of rental assistance to go to households at or below the 30% AMI level. For the purpose of this study, the tax credit set aside will be used to compute the income limits.

10.2 HOUSEHOLDS NOT RECEIVING RENTAL ASSISTANCE

Most households do not receive rental assistance. With respect to estimating which households may consider the subject a possible housing choice, we will evaluate the gross rent as a percent of their income according to the following formula:

gross rent $\div X\% \times 12$ months = annual income

X% in the formula will vary, depending on the circumstance, as outlined in the next two sections.

10.3 HOUSEHOLDS QUALIFYING FOR TAX CREDIT UNITS

Households who earn less than a defined percentage (usually 50% or 60%) of the county or MSA median income as adjusted by HUD (AMI) qualify for low income housing tax credit (LIHTC) units. Therefore, feasibility for projects expecting to receive tax credits will be based in part on the incomes required to support the tax credit rents.

For those tax credit units occupied by low income households, the monthly gross rent should not realistically exceed 35% of the household income. However, elderly households can afford to pay a larger portion of their incomes on housing than family households. Elderly households should not realistically exceed 40% of the household income.

10.4 HOUSEHOLDS LIVING IN MARKET RATE UNITS

Minimum incomes for low (and sometimes moderate) income households in market rate units have been calculated the same as low income households in tax credit units (*i.e.*, 35% of income for gross rent).

The maximum likely income for market rate units is established by using 20% of income to be spent on gross rent.

Households in luxury/upscale apartments typically spend less than 30% of their income on rent plus utilities. In other words, the percent of income spent on rent goes down as the income goes up.

10.5 ESTABLISHING TAX CREDIT QUALIFYING INCOME RANGES

It is critical to establish the number of households that qualify for apartments under the tax credit program based on their incomes. The income ranges are established in two stages. First, the maximum incomes allowable are calculated by applying the tax credit guidelines. Then, minimum incomes required are calculated. According to United States Code, either 20% of the units must be occupied by households who earn under 50% of the area median gross income (AMI), OR 40% of the units must be occupied by households who earn under 60% of the AMI. Sometimes units are restricted for even lower income households. In many cases, the developer has chosen to restrict the rents for 100% of the units to be for low income households.

Maximum Income Limit (HUD FY 2014)

| Pers. | VLIL | <u>50%</u> | <u>60%</u> |
|-------|--------|------------|------------|
| 1 | 18,950 | 18,950 | 22,740 |
| 2 | 21,650 | 21,650 | 25,980 |
| 3 | 24,350 | 24,350 | 29,220 |
| 4 | 27,050 | 27,050 | 32,460 |
| 5 | 29,200 | 29,200 | 35,040 |
| 6 | 31,400 | 31,400 | 37,680 |
| 7 | 33,550 | 33,550 | 40,260 |
| 8 | 35,700 | 35,700 | 42,840 |

Source: Very Low Income (50%) Limit and 60% limit: HUD, Low and Very-Low Income Limits by Family Size Others: John Wall and Associates, derived from HUD figures

The table above shows the maximum tax credit allowable incomes for households moving into the subject based on household size and the percent of area median gross income (AMI).

After establishing the maximum income, the lower income limit will be determined. The lower limit is the income a household must have in order to be able to afford the rent and utilities. The realistic lower limit of the income range is determined by the following formula:

Gross rent ÷ 35% [or 30% or 40%, as described in the subsections above] x 12 months = annual income

This provides for up to 35% [or 30% or 40%] of adjusted annual income (AAI) to be used for rent plus utilities.

The proposed gross rents, as supplied by the client, and the minimum incomes required to maintain 35% [or 30% or 40%] or less of income spent on gross rent are:

Minimum Incomes Required and Gross Rents

| | | | | | Minimum | |
|------------|----------|----------|------|-------|----------|-------------------|
| | | Number | Net | Gross | Income | Target |
| | Bedrooms | of Units | Rent | Rent | Required | Population |
| 50% | 1 | 8 | 495 | 566 | \$0 | PBRA |
| 60% | 1 | 32 | 495 | 566 | \$0 | PBRA |

Source: John Wall and Associates from data provided by client

From the tables above, the practical lower income limits for units *without* rental assistance can be established. Units *with* rental assistance will use \$0 as their lower income limit.

When the minimum incomes required are combined with the maximum tax credit limits, the income *ranges* for households entering the project can be established. Only households whose incomes fall within the ranges can be considered as a source of demand. Note that *both* the income limits *and* the amount of spread in the ranges are important.

10.6 QUALIFYING INCOME RANGES

The most important information from the tables above is summarized in the table below. Income requirements for any PBRA units will be calculated for the contract rent.

Qualifying Income Ranges by Bedrooms and Persons Per Household

| AMI | <u>Bedrooms</u> | <u>Persons</u> | Gross <u>Rent</u> | Income Based Lower <u>Limit</u> | Spread Between <u>Limits</u> | Upper <u>Limit</u> |
|-----|-----------------|----------------|----------------------|--|------------------------------------|-----------------------|
| 50% | 1 | 1 | 566 | 16,980 | 1,970 | 18,950 |
| 50% | 1 | 2 | 566 | 16,980 | 4,670 | 21,650 |
| 60% | 1 | 1 | 566 | 16,980 | 5,760 | 22,740 |
| 60% | 1 | 2 | 566 | 16,980 | 9,000 | 25,980 |

Sources: Gross rents: client; Limits: tables on prior pages; Spread: calculated from data in table

10.7 UPPER INCOME DETERMINATION

The income limit for all elderly units is calculated on 2 persons, regardless of number of bedrooms.

10.8 PROGRAMMATIC AND PRO FORMA RENT ANALYSIS

The table below shows a comparison of programmatic rent and pro forma rent.

Qualifying and Proposed and Programmatic Rent Summary

| | <u>1-BR</u> |
|--------------------------|-------------|
| 50% Units | |
| Number of Units | 8 |
| Max Allowable Gross Rent | \$507 |
| Pro Forma Gross Rent | \$566 |
| Difference (\$) | -\$59 |
| Difference (%) | -11.6% |
| 60% Units | |
| Number of Units | 32 |
| Max Allowable Gross Rent | \$609 |
| Pro Forma Gross Rent | \$566 |
| Difference (\$) | \$43 |
| Difference (%) | 7.1% |

Targeted Income Ranges

An income range of \$0 to \$20,300 is reasonable for the 50% AMI PBRA units. An income range of \$0 to \$24,360 is reasonable for the 60% AMI PBRA units. An income range of \$0 to \$24,360 is reasonable for the project overall.

10.9 HOUSEHOLDS WITH QUALIFIED INCOMES

The table below shows income levels for renters and owners separately. The number and percent of income qualified *renter* households is calculated from this table.

Number of Specified Households in Various Income Ranges by Tenure

| Owner occupied: | <u>State</u> 1,226,873 | <u>%</u> | <u>County</u> 53,282 | <u>%</u> | <u>Market Area</u> 3,659 | <u>%</u> | <u>City</u> 879 | <u>%</u> |

The percent of renter households in the appropriate income ranges will be applied to the renter household growth figures to determine the number of new renter households that will be income qualified to move into each of the different unit types the subject will offer.

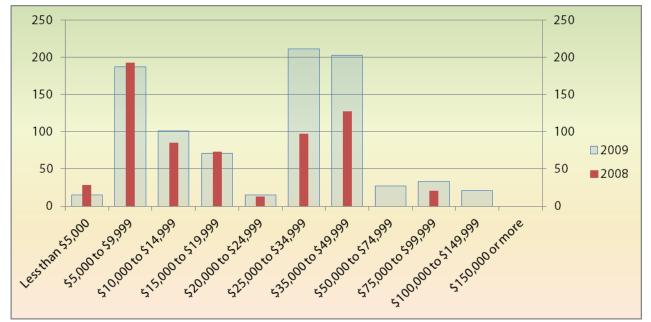

Percent of Renter Households in Appropriate Income Ranges for the Market Area

Source: John Wall and Associates from figures above

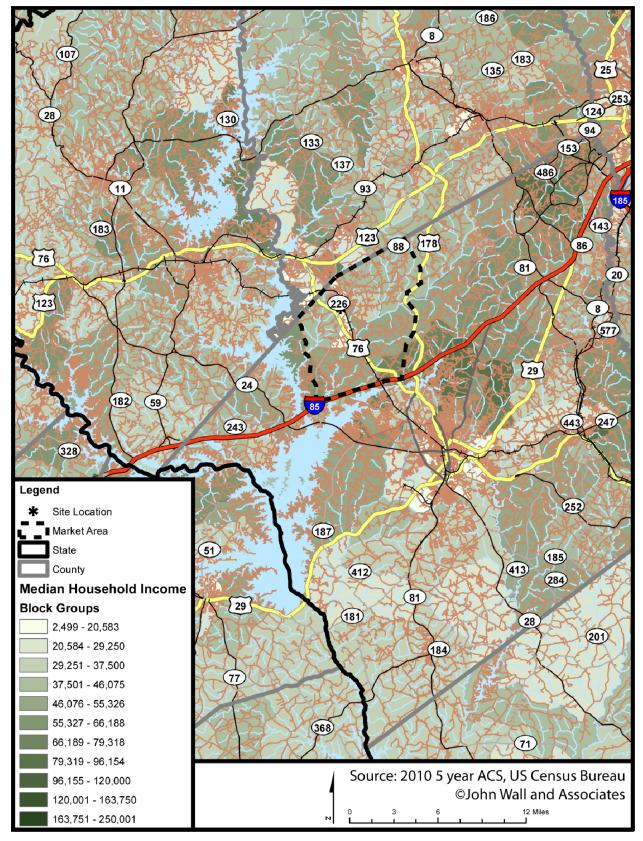

The table above shows how many renter households are in each income range. The number and percent are given in the last two rows (e.g., 474, or 37.1% of the renter households in the market area are in the PBRA range.)

Change in Renter Household Income

Sources:2010 and 2011-5yr ACS (Census)

The above table shows the change in renter households in various income ranges. The more current data is reflected on the left axis.

11 DEMAND

11.1 DEMAND FROM NEW HOUSEHOLDS

11.1.1 NEW HOUSEHOLDS

It was shown in the Household Trends section of this study that 89 new housing units will be needed by the year of completion. It was shown in the Tenure section that the area ratio of rental units to total units is 14.5%. Therefore, 13 of these new units will need to be rental.

The table "Percent of Renter Households in Appropriate Income Ranges for the Market Area" shows the percentage of renter households in various income ranges. These percentages are applied to the total number of new rental units needed to arrive at the *number* of new rental units needed in the relevant income categories:

New Renter Households in Each Income Range for the Market Area

| | New Renter | Percent Income | Demand due to new |
|----------------------------------|---------------|-------------------|----------------------|
| | Households | Qualified | <u>Households</u> |
| 50% AMI: \$0 to \$20,300 | 13 | 37.1% | 5 |
| 60% AMI: \$0 to \$24,360 | 13 | 42.2% | 5 |
| Overall Project: \$0 to \$24,360 | 13 | 42.2% | 5 |

Source: John Wall and Associates from figures above

11.2 DEMAND FROM EXISTING HOUSEHOLDS

11.2.1 DEMAND FROM RENT OVERBURDEN HOUSEHOLDS

A household is defined as rent overburdened when it pays 30% or more of its income on gross rent (rent plus utilities). Likewise, the household is *severely* rent overburdened if it pays 35% or more of its income on gross rent.

For tax credit units *without* rental assistance, households may pay 35% of their incomes for gross rent. Therefore, up to 35% of income for gross rent is used in establishing affordability in the "Demand from New Households" calculations. Hence, only *severely* (paying in excess of 35%) rent overburdened households are counted as a source of demand for tax credit units without rental assistance.

For units *with* rental assistance (tenants pay only 30% of their income for gross rent), any households paying more than 30% for gross rent would benefit by moving into the unit so all overburdened households in the relevant income range are counted as a source of demand.

The following table presents data on rent overburdened households in various income ranges.

| | State | | County | | Market Area | | <u>City</u> | |
|-----------------------|---------|-------|--------|-------|-------------|-------|-------------|-------|
| Less than \$10,000: | 98,643 | | 3,896 | | 241 | | 184 | |

11.2.3 DEMAND FROM SUBSTANDARD CONDITIONS

The Bureau of the Census defines substandard conditions as 1) lacking plumbing, or 2) 1.01 or more persons per room.

Substandard Occupied Units

| | <u>State</u> | <u>%</u> | <u>County</u> | <u>%</u> | Market Area | <u>%</u> | <u>City</u> | <u>%</u> |
|--------------------------|--------------|----------|---------------|----------|-------------|----------|-------------|----------|
| Owner occupied: | 1,226,873 | | 53,282 | | 3,659 | | 879 | |
| Complete plumbing: | 1,222,823 | 100% | 53,066 | 100% | 3,659 | 100% | 879 | 100% |

| 1.01 to 1.50 | 54 | 0% | 0 | 0% | 0 | 0% | 0 | 0% |
| 1.51 or more | 41 | 0% | 0 | 0% | 0 | 0% | 0 | 0% |
| Renter occupied: | 531,859 | | 19,237 | | 1,277 | | 461 | |
| Complete plumbing: | 527,765 | 99% | 18,853 | 98% | 1,231 | 96% | 461 | 100% |
| 1.00 or less | 505,927 | 95% | 18,360 | 95% | 1,189 | 93% | 461 | 100% |
| 1.01 to 1.50 | 13,642 | 3% | 323 | 2% | 23 | 2% | 0 | 0% |
| 1.51 or more | 8,196 | 2% | 170 | 1% | 20 | 2% | 0 | 0% |
| Lacking plumbing: | 4,094 | 1% | 384 | 2% | 46 | 4% | 0 | 0% |
| 1.00 or less | 3,927 | 1% | 384 | 2% | 46 | 4% | 0 | 0% |
| 1.01 to 1.50 | 88 | 0% | 0 | 0% | 0 | 0% | 0 | 0% |
| 1.51 or more | 79 | 0% | 0 | 0% | 0 | 0% | 0 | 0% |
| Total Renter Substandard | | | | | 89 | | | |

Source: 2011-5yr ACS (Census)

From these tables, the need from substandard rental units can be drawn. There are 89 substandard rental units in the market area. Because 16.7% of the renter households have an elderly 62+ householder, we can determine there are 15 elderly substandard rental units.

From the figures above the number of substandard units in each appropriate income range can be estimated in the table below.

Substandard Conditions in Each Income Range for the Market Area

| | Total Substandard <u>Units</u> | Percent Income <u>Qualified</u> | Demand due to <u>Substandard</u> |
|----------------------------------|--------------------------------------|---------------------------------------|--|
| 50% AMI: \$0 to \$20,300 | 15 | 37.1% | 6 |
| 60% AMI: \$0 to \$24,360 | 15 | 42.2% | 6 |
| Overall Project: \$0 to \$24,360 | 15 | 42.2% | 6 |

Source: John Wall and Associates from figures above

11.2.4 DEMAND FROM ELDERLY TENURE

Many elderly wish to remain in the same community but are unable to or do not want to "keep up with" all that owning a home requires. However, because apartments are either in too short supply or do not exist in their community, they are unable to make that move.

If the state's condition is interpreted to be the norm regarding the percentage of elderly that desire to rent, then the market area has a standard to be compared to.

Occupied Housing Units by Tenure and Age of Householder

| | <u>State</u> | | Market Area | |
|-------------|--------------|-------|-------------|-------|
| 55+ Owners | 623,572 | 82.0% | 1,935 | 84.5% |
| 55+ Renters | 137,103 | 18.0% | 356 | 15.5% |
| 62+ Owners | 429,508 | 83.1% | 1,371 | 85.5% |
| 62+ Renters | 87,316 | 16.9% | 232 | 14.5% |
| 65+ Owners | 346,022 | 83.3% | 1,104 | 85.8% |
| 65+ Renters | 69,391 | 16.7% | 183 | 14.2% |

Source: 2010 Census

As can be seen in the above table, 16.9% of the state's elderly 62+ households rent, while 14.5% of the market area's elderly households rent. This indicates there should be room in the market for apartments to house elderly homeowners who want to move into apartments.

11.2.5 OTHER DEMAND

SCSHFDA market study requirements allow for the inclusion of other demand factors when appropriate. Under RD 515 regulations, a 515 property can be occupied by households 62 or older or households with a physical handicap.

According to the 2013 ACS there are 262 persons with a disability in the market area. The following table estimates the number of disabled households qualified for each income range.

Disabled Householder

| | Households | Qualified | Households |
|----------------------------------|------------|-----------|-------------------|
| 50% AMI: \$0 to \$20,300 | 262 | 37.1% | 97 |
| 60% AMI: \$0 to \$24,360 | 262 | 42.2% | 111 |
| Overall Project: \$0 to \$24,360 | 262 | 42.2% | 111 |

Source: 2011-5yr ACS (Census)

12 DEMAND FOR NEW UNITS

The demand components shown in the previous section are summarized below.

| | 50% AMI: \$0 to \$20,300 | 60% AMI: \$0 to \$24,360 | Overall Project: \$0 to \$24,360 |
|----------------------------|--------------------------|--------------------------|----------------------------------|
| New Housing Units Required | 5 | 5 | 5 |
| Rent Overburden Households | 27 | 30 | 30 |
| Substandard Units | 6 | 6 | 6 |
| Elderly Tenure | 14 | 16 | 16 |
| Other: Disability | 97 | 111 | 111 |
| Demand | 149 | 168 | 168 |
| Less New Supply | 0 | 0 | 0 |
| NET DEMAND | 149 | 168 | 168 |

* Numbers may not add due to rounding.

State Housing Exhibit-S states:

"In cases where the proposed rents for projects with Project Based Rental Assistance are higher than the maximum allowable LIHTC rents, <u>two</u> separate demand analyses must be shown: One with the rental assistance (thereby allowing \$0 for the minimum income) and one <u>without</u> the rental assistance. For the second demand calculation without rental assistance, analysts should use tax credit rents regardless of market conditions."

Because the 50% AMI rents are higher than the maximum allowable LIHTC rents, the second demand calculation is necessary. It appears on the following page.

13 DEMAND FOR NEW UNITS WITHOUT RENTAL ASSISTANCE

The demand components shown in the previous section are recalculated based on the assumption of no rental assistance, with the 50% AMI rents set to LIHTC maximum. This calculation does not reflect the project as proposed.

* Numbers may not add due to rounding.

14 SUPPLY ANALYSIS (AND COMPARABLES)

This section contains a review of statistical data on rental property in the market area and an analysis of the data collected in the field survey of apartments in the area.

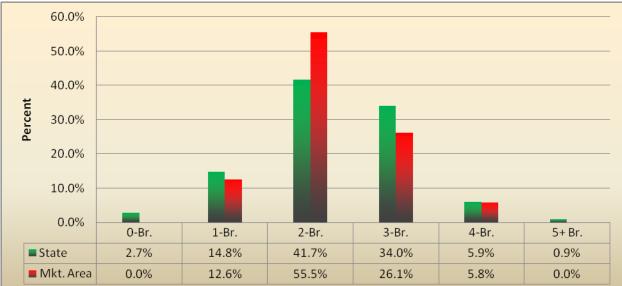

14.1 TENURE

Tenure by Bedrooms

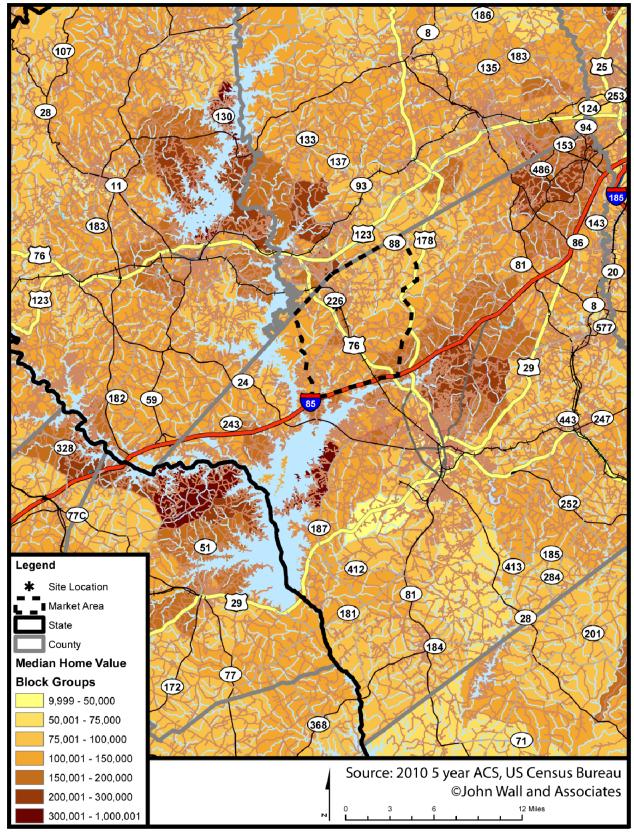

| | State | <u>%</u> | County | % | Market Area | <u>%</u> | City | % |

Tenure by Bedrooms for the State and Market Area

14.2 BUILDING PERMITS ISSUED

Building permits are an indicator of the economic strength and activity of a community. While permits are never issued for a market area, the multi-family permits issued for the county and town are an indicator of apartments recently added to the supply:

Building Permits Issued

| | <u>County</u> | | | | <u>City</u> | |
|------|---------------|---------------|---------------|--------------|---------------|---------------|

14.3 SURVEY OF APARTMENTS

John Wall and Associates conducted a survey of apartments in the area. All of the LIHTC apartments in the market area were surveyed along with any other apartments of interest are surveyed. Some of them are included because they are close to the site, or because they help in understanding the context of the segment where the subject will compete. The full details of the survey are contained in the apartment photo sheets later in this report. A summary of the data focusing on rents is shown in the apartment inventory, also later in this report. A summary of vacancies sorted by rent is presented in the schedule of rents, units, and vacancies.

List of Apartments Surveyed

| Name | Units | Vacancy Rate | <u>Type</u> | Comments |
|-----------------------|-------|--------------|----------------------------------|-----------------|
| Edgewood Square | 96 | n/a | Sec 8 | |
| Green Glen | 24 | 4.2% | Conventional | |
| Heritage at Riverwood | 366 | n/a | Conventional | Rent comp |
| Heritage Pointe | 176 | n/a | Conventional; Sec 8=not accepted | Rent comp |
| Pendleton Gardens | 50 | 0.0% | TC Sec 8 | |
| Standing Oaks | 32 | 0.0% | Conventional; non-student | |
| Village Square | 40 | 0.0% | Sec 515 Elderly; PBRA=40 | |

14.4 NEW "SUPPLY"

SCSHFDA requires comparable units built since 2012 and comparable units built in previous years that are not yet stabilized to be deducted from demand. Only comparable units within comparable complexes will be deducted from demand, as indicated by the asterisks.

| Apartment Units Built or F | Proposed Sinc | e the Base \ | ′ ear | | | | |
|----------------------------|---------------|-------------------|-------------------|------------|------------|----------|-------|
| | | Units With | 30% AMI, | 50% AMI, | 60% AMI, | Above | |
| | Year | Rental | No Rental | No Rental | No Rental | Moderate | |
| Project Name | Built | Assistance | Assistance | Assistance | Assistance | Income | TOTAL |
| NONE | | | | | | | |

* Units that will be deducted from demand; parenthetical numbers indicate partial comparability. I.e., 100(50*) indicates that there are 100 new units of which only half are comparable.

There are no pipeline units to deduct as new supply.

14.5 SCHEDULE OF PRESENT RENTS, UNITS, AND VACANCIES

The present housing situation is examined in this section. The rents, number of units, and vacancies of the apartments listed in the apartment inventory (shown separately later) are summarized in the tables below. Rents, units, and vacancies are tabulated separately for the various bedroom sizes, a necessary step in making bedroom mix recommendations.

The table below shows surveyed apartment complexes *without* rent subsidy in or near the market area. The *pro forma* rents, as given by the developer, are shown in orange in the table below. These rents will be compared to the other apartments in the area, and especially the comparable apartments to determine if they are reasonable. In addition to seeing how the *pro forma* rents compare in terms of absolute rents in the following table, it will be important to consider the amenities and locations of the other apartments.

Schedule of Rents, Number of Units, and Vacancies for Unassisted Apartment Units

| | 1-Bedroom Unit | s | | 2-Bedroom Unit | s | | 3-Bedroom Unit | s | 4 | -Bedroom | Units |
|-------|----------------|-----------|-------|----------------|-----------|-------|----------------|-----------|-------|----------|-----------|
| Rents | Units | Vacancies | Rents | Units | Vacancies | Rents | Units | Vacancies | Rents | Units | Vacancies |
| | | | 24 | 1 | 400 | | | | | | |
| | | | 32 | 0 | 460 | | | | | | |

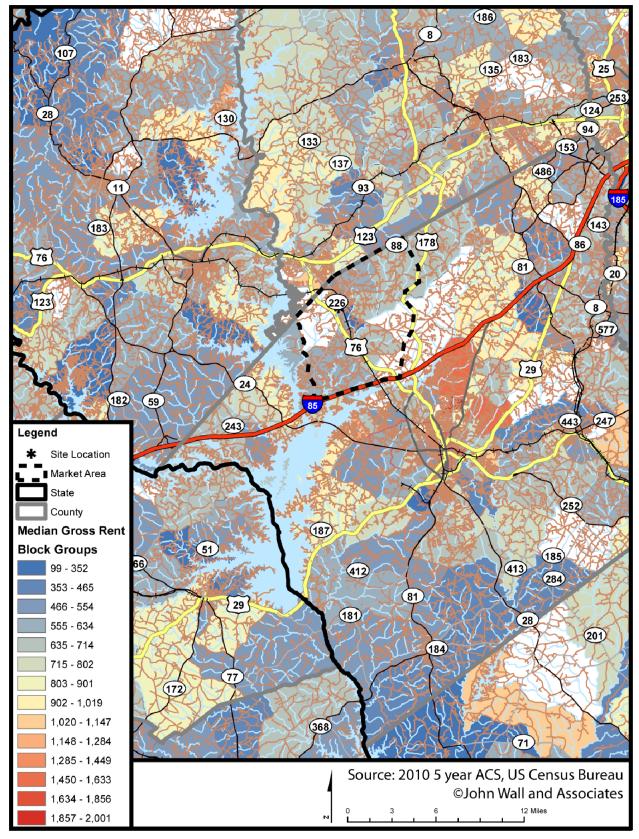

Source: John Wall and Associates

A vacancy rate of 7.0% is considered normal. The overall vacancy rate in the market is 1.8%.

14.6 OTHER AFFORDABLE HOUSING ALTERNATIVES

The market area contains other apartments with comparable rents. These other apartments would be the primary other affordable housing alternatives. There are no reasons to believe the single family home and/or condominium market conditions will adversely impact the project. According to the 2009 American Housing Survey (US Census Bureau), 70.8% of households living in apartments did not consider any other type of housing choice. Similar percentages apply to households who chose to live in single family homes and mobile homes. Based on these statistics, it is reasonable to conclude that for most households, apartments, single family homes, and mobile home are not interchangeable options.

MEDIAN GROSS RENT MAP

14.7 COMPARABLES

The apartments in the market most comparable to the subject are listed below:

| parability Degree of Comparability |
|------------------------------------|
| Subject Very good |
| l 1-br units Low |
| I 1-br units Low |
| ona |

There are no other elderly apartments in the market area, so there are no comparable units. The two market rent comparables are the two nearest apartments with one bedroom units and market rents.

14.8 PUBLIC HOUSING

There are 41 public housing units in Pendleton owned by the local public housing authority. The overall vacancy rate of the housing authority was 12% in 2014. There are 6 people on the waiting list for a housing authority unit. The local housing authority doesn't administer vouchers.

14.9 LONG TERM IMPACT OF THE SUBJECT ON EXISTING TAX CREDIT UNITS

The proposed housing units will have no impact on existing Tax Credit apartments. The subject will not be adding any new units to the market.

14.10 APARTMENT INVENTORY

The apartment inventory follows this page. Summary information is shown for each apartment surveyed and detailed information is provided on individual property photo sheets.

14.11 MARKET ADVANTAGE

See Appendix A for market rent calculations.

| | | Number | Net | Market | Market |
|------------|----------|----------|-------------|-------------|------------------|
| | Bedrooms | of Units | <u>Rent</u> | <u>Rent</u> | <u>Advantage</u> |
| 50% | 1 | 8 | 495 | 559 | 11.4% |
| 60% | 1 | 32 | 495 | 559 | 11.4% |

The subject was compared to several conventional properties in or near the market area. The calculations show all of the subject's proposed rents to have market advantages greater than 10%. This calculation is performed on the subject contract rents.

15 INTERVIEWS

The following interviews were conducted regarding demand for the subject.

15.1 APARTMENT MANAGERS

Judy, manager of Pendleton Gardens (Tax Credit/Section 8), said Village Square could use an update. She said it is always a good thing to improve a property for its residents. She said, "you can't go wrong with a rehab as long as you do it right and don't do just a halfway job". She said her property just got a rehab a few years ago and it really sets them apart from everyone else. She said her property received an increase in applicants after its rehab. Judy said Village Square will do well after the rehab and will see an increase in applications.

Mary Ann, site manager of Village Square (Subject/Section 515/Elderly/Full RA), said the proposed rehab is very much needed. She said the tenants are loyal and most have stayed at her property for twenty years or until they have passed away. She said the USDA rental assistance program is a great program that these elderly tenants need in order to survive off less than \$1,000 a month. She said all the proposed new amenities sound wonderful as well as the new kitchens and bathrooms. She said the tenants would be happier with washer/dryer connections in their units than dishwashers so adding these is excellent. Mary Ann said she was excited about the promising possibility for the proposed rehab.

15.2 ECONOMIC DEVELOPMENT

According to the Upstate South Carolina Alliance, there have been 13 companies to locate or expand in Anderson County within the past year, which will create a <u>total of 796 new jobs</u>. CRR Carbon Resources Recovery will locate and create 30 new jobs. Duke Energy will expand and create 25 new jobs. E & I Engineering will locate and create 250 new jobs. Viva Recycling will locate and create 14 new jobs. Fox Farm Soil and Fertilizer Company will locate and create 27 new jobs. Chomarat will expand and create 20 new jobs. Baldor Electric will expand and create 45 new jobs. Orian Rugs will expand and create 125 new jobs. Tetramer Technologies will expand and create 25 new jobs. First Quality Tissue will expand and create 200 new jobs. Glen Raven will expand and create 10 new jobs. Tactical Medical Solutions will expand and create 15 new jobs. Stanco Metal Products will expand and create 10 new jobs.

On the down side, according to the SC Works Warn Notices there has been one company to close in Anderson County within the past year. Metrolina Greenhouses closed in Pendleton with <u>57 jobs lost</u>.

©2009 John Wall and Associates

market - subject = % micrady

The two properties selected as market rent comparables are both market rate properties near the subject. They are three and four miles away, but are the closest market rate properties with one-bedroom units.

They are both B+ class properties. They are somewhat comparable in terms of location. Heritage Pointe is closer to a grocery store and other goods and services. Heritage at Riverwood is further from any goods and services. The subject has slightly larger units than Heritage at Riverwood and significantly larger units than Heritage Pointe. The proposed additions to the amenities package at the subject will improve its standing in the market considerably, although it will still be inferior to both comparables.

The street rents for the comparables are \$515 and \$558. The calculated street rent for the subject is \$541, which is within the range of the comparables.

The comparables do not provide water and sewer, which is included with the rent at the subject. The subject's rents are therefore adjusted up by \$18 (to \$559) to account for that difference.

17 APPENDIX B—DISABILITY

Rural Development Handbook 2-3560 sets forth the eligibility requirements for Elderly, Handicapped, and Disabled housing.

B. Who Can Be Counted as a Household Member?

A household may be made up of a variety of members and may have a specific definition. The following are examples of members and types:

- Elderly families: A household where the tenant, co-tenant, member, or co-member is at least 62 years old, or disabled, as defined below. An elderly family may include a person younger than 62 years of age. (To receive an elderly family deduction, the person who is elderly, disabled must be the tenant, cotenant, member, or co-member.)
- Individual with Disabilities: The term disability is considered equivalent to the term handicap. Eligibility requirements for fully accessible units are contained in 7 CFR 3560.154(g)(1)(i) and 3560.155(b). A person is considered to have a disability if either of the following two situations occur:

(1) <u>As defined in section 501(b) of the Housing Act of 1949</u>. The person is the head of household (or his or her spouse) and is determined to have an impairment which:

(i) Is expected to be of long-continued and indefinite duration;

(ii) Substantially impedes his or her ability to live independently; and

(iii)Is of such a nature that such ability could be improved by more suitable housing conditions, or if such person has a developmental disability as defined in section 102(7) of the Developmental Disability and Bill of Rights Act (42 U.S.C. 6001(7)).

(2) As defined in the Fair Housing Act; the Americans with Disabilities Act; and section 504 of the Rehabilitation Act of 1973. The person has a physical or mental impairment which substantially limits one or more of such person's major life activities; a record of such impairment; or being regarded as having such an impairment. The term does not include current, illegal use of or addiction to a controlled substance. As used in this definition, physical or mental impairment includes:

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genito-urinary; hemic and lymphatic; skin; and endocrine;

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term "physical or mental impairment" includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebral palsy, autism, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, Human Immunodeficiency Virus infection, mental retardation, emotional illness, drug addiction (other than addiction caused by current, illegal use of a controlled substance), and alcoholism;

(iii) Major life activities means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working;

(iv) Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities;

(v) Is regarded as having an impairment means:

(A) Has a physical or mental impairment that does not substantially limit one or more major life activities but that is treated by the borrower or management agent as constituting such a limitation;

(B) Has a physical or mental impairment that substantially limits one or more major life activities only as a result of the attitudes of others toward such impairment; or

(C) Has none of the impairments described in this definition but is treated by another person as having such an impairment.

18 NCHMA MARKET STUDY INDEX/CHECKLIST

A. Introduction: Members of the National Council of Housing Market Analysts provide a checklist referencing all components of their market study. This checklist is intended to assist readers on the location and content of issues relevant to the evaluation and analysis of market studies.

B. Description and Procedure for Completing: The following components have been addressed in this market study. The page number of each component is noted below. Each component is fully discussed on that page or pages. In cases where the item is not relevant, the author has indicated 'N/A' or not applicable. Where a conflict with or variation from client standards or client requirements exists, the author has indicated a 'V' (variation) with a comment explaining the conflict. (More detailed notations or explanations also acceptable)

C. Checklist:

| 1. Executive Summary | 8 |
|---|----|
| 2. Concise description of the site and adjacent | |
| parcels | 12 |
| 3. Project summary | 12 |
| 4. Precise statement of key conclusions | 11 |
| 5. Recommendations and/or modification to project discussion | 10 |
| 6. Market strengths and weaknesses impacting project | 10 |
| 7. Lease-up projection with issues impacting performance | 8 |
| 8. Project description with exact number of | |
| bedrooms and baths proposed, income | |
| limitation, proposed rents and utility allowances | 12 |
| 9. Utilities (and utility sources) included rent | 12 |
| and paid by landlord or tenant? | 12 |
| 10. Project design description | 12 |
| 11. Unit and project amenities; parking | 12 |
| 12. Public programs included | 12 |
| 13. Date of construction/preliminary | |
| completion | 15 |
| 14. Reference to review/status of project plans | 14 |
| 15. Target population description | 14 |
| Market area/secondary market area description | 27 |
| 17. Description of site characteristics | 16 |
| 18. Site photos/maps | 16 |
| 19. Map of community services | 63 |
| 20. Visibility and accessibility evaluation | 18 |
| 21. Crime information | 19 |
| 22. Population and household counts | 28 |
| 23. Households by tenure | 32 |
| 24. Distribution of income | 35 |
| 25. Employment by industry | 37 |
| 26. Area major employers | 39 |
| 27. Historical unemployment rate | 41 |
| 28. Five-year employment growth | 41 |
| 29. Typical wages by occupation | 41 |
| 30. Discussion of commuting patterns of area workers | 27 |
| | |

* Information on comparable properties, including profiles, and photographs, appear on the unnumbered photosheets, following page 63.

38(V): Some textual comparison is made on page 10, while numeric comparisons are made on page 59 and on the apartment inventory.

| 31. Existing rental housing discussion | 56 |

20 RÉSUMÉS JOHN WALL EXPERIENCE PRESIDENT

JWA, Inc., Anderson, South Carolina (June, 1990 to Present)

JWA, Inc. is an information services company providing demographic and other types of data, as well as geographic information system services, mapping, and research to market analysts and other clients.

PRESIDENT

John Wall & Associates, Anderson, South Carolina (December, 1982 to Present)

John Wall & Associates is a planning and analysis firm specializing in real estate market analysis and land development consultation. Initially, the firm concentrated on work in the southeastern portion of the United States. In 1990, the work was expanded to the entire United States. John Wall & Associates (Anderson, South Carolina office) has completed over 2,500 market analyses, the majority of these being for apartment projects (both government and conventional). The firm has also done many other types of real estate market analyses, shopping center master plans, industrial park master plans, housing and demographic studies, land planning projects, site analysis, location analysis, and GIS projects. Clients have included private developers, governments, syndicators, and lending institutions.
