Subject: RE: Bingo Halls

For purposes of the entertainment points, the Authority considers bingo halls to be locations where the primary function of the establishment is to offer bingo games. The Authority would expect these establishments to maintain a Class AA or Class B license from the South Carolina Department of Revenue.

Subject: Bingo Halls

I have received several questions from developers regarding a definition for a Bingo Hall as well as questions related to the established hours of operation we expect to see. When you google Bingo Halls in South Carolina you get a listing of locations throughout the state. They all have various days of operation and hours of operation but it doesn't appear to be the typical 6-7 days a week open or the 8-5 hours of operation. In addition, I am getting questions regarding churches or social groups that have a bingo night and if we would count those types of events as a Bingo Hall.

Based on the questions being asked I would like to put out guidance/clarification as to what we consider a Bingo Hall and what would count for points. Your assistance in this clarification is appreciated. Thanks,
